Wednesday, 12/13, 2:00 pm – 5:00 pm

The Rutgers Quads on Livingston Campus
Dormitory courtyard design project from a client perspective; creating a connection to the Rutgers Ecological Preserve.
Sophomore Studio

Thursday 12/14, 2:00 pm – 5:00 pm

George Street Playhouse, College Farm Road, Cook Campus
Clients: George Street Playhouse Theater Company and Rutgers University
Design of the courtyard and adjacent landscape of the former New Jersey Museum of Agriculture on Cook Campus. The site is currently being leased by the George Street Playhouse as a temporary performance space during construction of their permanent location downtown New Brunswick. Once the theater company’s use of the space has drawn to a close, the site will become home to a campus Makerspace Lab.
First Year Graduate Studio

Monday 12/18, 9:00 am – 12:00 noon

Foodsheds, Farmers Markets, and Design Diets
The studio used GIS to map out farmers markets, vendors and farms, and regional context and is exploring design responses to imagine new approaches to shaping farmers markets as an expanded regional experience.
Third Year Graduate GeoDesig Studio

Monday 12/18, 1:00 pm – 5:00 pm

Passaic Valley Open Space System
The class developed an open space system along the Passaic River, addressing flooding, reduction of storm water run-off, water pollution, and creating safe and easy access to the river.
Junior Environmental Planning Studio

Wednesday 12/20, 11:30am – 4:00 pm

Lighthouse Point in the St. George neighborhood of Staten Island
This semester the Advanced Studio has been exploring new models of housing, park, and land development along Staten Island’s North Shore.
Senior Housing & Open Space Studio
