

April 30th 2016

10:00am - 1:00pm

**Department of Landscape Architecture
Blake Hall, 93 Lipman Drive, New Brunswick**

Design a Parklet

Experience what it is like to be a landscape architect! Rutgers Department of Landscape Architecture invites you to participate in the design of “parklet” by transforming a humble parking spot into a recreational space. Using our interactive display, you can design your parklet with ground cover, materials, seating, shade, enclosure and plants - and take home a rendering of a 3D computer model of your design !

Go through the design process from start to finish. We will have stations to:

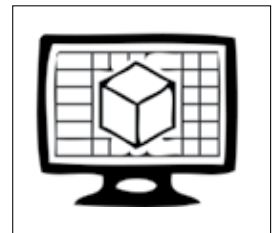

Sketch

Work with a scale model

Create a 3D computer model of your design

See an outdoor installation of a Parking Day design
